MATH

**Now
Enrolling!**

K-2nd Grade

We are thrilled to announce that we will be holding a weekly S.T.E.A.M. club at Christa McAuliffe Charter Elementary! Our programs are **PACKED** with colorful, wonderful, educational **FUN!**

FEEL FREE TO CALL US WITH ANY QUESTIONS

239-877-0116

We are a private company, and not a school - endorsed club.

September 11th Dry Ice

Get things moving with multiple dry ice experiments! Things are sure to be full of color and surprises.

September 18th 3D Bubbles

Prepare to be amazed by our favorite touchable bubbles, and take on the challenge of making square bubbles!

October 2nd Playing with Density

Go back into time, and create a popular '70's toy using the properties of density!

October 9th Science of Sound

Learn the science of sound as we shake things up!

October 16th Levers and Balances

Make sure you have your balance and discover the center of gravity for multiple objects. Then see some examples of forces and levers.

October 30th Epidermis

Have you ever wonder what holds your insides inside? How come they don't fall apart? Understand the science behind different kinds of epidermis, and why ours is different than a bird's and a snake's.

November 6th Recon Rovers

Use your geometry knowledge to guide your robot through the room, and predict where you think it will end up. Can your group program with the most accuracy?

November 13th Amazing Polymers

Experiment with water in a whole new way! We will be incorporating scientific tricks and tools to observe water conservation techniques used by people all over the world.

November 20th World of Worms

Nutty Scientists takes a slimy turn as we explore the world of worms! Make observations regarding their appearance, texture, and environment.

December 4th Secrets of Water

Prepare yourself to push water to new limits! You will be shocked as we learn some incredible things water can do.

December 11th Rockets, Planes, and Forces

Explore the science of flight as items fly, explode, and spin!
