

***Healthy tip of the month Get your entire family involved**

Family. It's a major part of every child's life – and often the most important factor in helping a child make healthy changes. Research shows children are often more willing to eat healthy foods and be active if they see their parents and other family members doing these things first. That's why it's important to get every member of your family involved in healthy eating and physical activity. – American Dietetic Association
