

BEAT THE BELL

The "beat the bell" incentive encourages timely and consistent attendance. Each student in each classroom has an assigned number by his/her teacher. We will randomly select days to play "beat the bell". It will be a surprise so students will not know the days we will play. On these days, a random number will be selected and at the end of morning announcements, and a number will be announced. The student assigned to that number will win IF they have beat the bell and are seated in the classroom by 8:20am.

WHY BEAT THE BELL?

Making it to school on time increases your child's chances at lifetime success, builds their confidence, and learning skills.
