

To continue strengthening the safety and security of our campus, we will be implementing the Open Gate security system beginning next week. As part of this change, our morning arrival routine will be adjusted for all students.

During morning drop-off, metal detectors will be stationed at the breezeway entrances used for both front and back drop-off areas. All students will be required to walk through the metal detectors before entering the school building. We will practice next week (Monday - Wednesday) before implementing the new procedures on Thursday.

Please note the following important procedures:

- All students must enter through the designated breezeway entrances and pass through the metal detector system.
- Students are not permitted to go directly to the portables upon arrival. They must first pass through the security checkpoint.
- Parents and visitors entering the school building must go through the metal detector located at the front office entrance.

These procedures are being implemented to ensure a safe and secure environment for all students and staff. We appreciate your cooperation and support as we introduce this new system.
